PROFILE

I am passionate about discovering innovative solutions and I'm actively seeking new opportunities to advance as an artist. With my technical and artistic expertise, I deliver visually compelling designs that clearly communicate and reflect a project's intentions

WORK HISTORY

JUNIOR 3D ENVIRONMENT ARTIST / GRAPHIC DESIGNER

Fintech Finance - Internship - Dec 2021 - Sept 2022

I contributed to a 3D proof of concept trailer for a Netflix pitch, utilizing my skills in 3D modeling, cinematography, and compositing. Working with my boss, I helped create the trailer to gain traction for a documentary project. Additionally, I produced daily thumbnails and occasional adverts for the Fintech Finance website

GRAPHIC DESIGNER (Volunteer)

ELATT - Mar 2024 - May 2024

I've worked with ELATT's Graphic Design team to create artwork for their 40th Anniversary Celebration and Mental Health Awareness Month.

GRAPHIC DESIGNER (Internship)

Islington Robotica - May 2024 - Oct 2024

I played a key role in the company's rebranding by developing a new website that aligned with the updated brand identity, creating 3D game assets and product showcases, and producing social media content. Since mid-September, I have led the website redesign, enhancing its functionality and user experience to reflect the new brand direction.
